

09.05.2023

BULLETIN NR 1

The Baltic Drag Racing Work Group has decided not to let cars manufactured after 2014 and equipped only with roll bar, run faster than 11.5 sek on 402 m.

The restriction is issued due to local (Lithuanian) safety standards. There for, at Baltic Cup races, held in Lithuania (17.06-18.06.2023 and 05.08.-06.08.2023) all cars manufactured after 2014, that race in PRO ET class, must set their dial-in`s not faster than 11.50, not 10.50 as is stated in the Baltic Drag Racing Series Technical Regulations 2023 Appendix 1
